RE: Utah Mined Land Reclamation Act

RE: S & S Mining Company

RE: Geneve Claim-Dry Valley
San Juan County, Utah

Dear Mr. Daniels:

Enclosed herewith please find MR FORM 1 and 2 filled out by Mr. Stocks relative to the above entitled matters.

Please pay particular attention to the fact that neither Mr. Stocks nor I knew how to answer paragraph 11 on Form 2. The reason of the inability to answer rests on the fact that this property lies in an old, established mining district. V.C. A. and Foote Minerals, at one time, had a mill in this general area. The properties have been worked historically during war time when vanadium was scarce and the price right. Access roads have all been established and needed only to be re-graded in order to make present mining operations possible. The Juniper trees that were disrupted were few as the entire surface cover is extremely meager. Unless specifically required otherwise, Mr. Stocks does not feel that the natural cover will be changed substantially.

If this does not satisfy the requirements of paragraph 11, please so advise and Mr. Stocks will do his utmost to comply with your requirements.

Sincerely,

Robert H. Ruggeri
